Dear [],

Recently, the Commission sent you an email about a survey for completers of preliminary teacher preparation programs. You may remember from the earlier email that the purpose of the survey is to improve teacher preparation programs in California. The Commission reviews and accredits every teacher preparation program in California through a continuous program improvement model. When a preparation program has not demonstrated that it provides high quality, effective teacher preparation, the Commission has the legal authority to close the program.

The link to your survey was included in the first email and is provided here for your convenience: <>. The survey will take about 20 minutes to complete. Once you've started the survey, you can return to it by clicking on this link.

The Completer Survey is designed to identify strong, effective practices as well as poor or ineffective practices across all teacher preparation programs in California. This data will help the Commission improve its review and accrediting processes to ensure that every new cohort of teachers has received the most effective preparation possible.

This is your opportunity to tell the Commission about the quality of experiences you had in your program and about the effectiveness of the preparation you received. Please help ensure that future new teachers are ready to help all children learn the rigorous content expected today. Your input is critical to this process.

If you have any questions or comments about the survey, please feel free to contact the Commission at [Accreditation@ctc.ca.gov](mailto:Accreditation@ctc.ca.gov).

Thank you.
